

# I'm CHANDANA.

FRONT AND WEB DEVELOPER

KNOW ME BETTER

## HI, MY NAME IS LAKSHMI CHANDANA K

I will either find a way, or make one.

Over 4 years of working experience in developing responsive User Interface (UI) for web applications using HTML5, CSS3, and JavaScript.

Worked with JavaScript frameworks and libraries such as, Vue.js and jQuery.

Experience in producing and consuming RESTful APIs using NodeJS and ExpressJS.

Worked with both relational (Oracle, MySQL) and document based (MongoDB) database systems.

Expertise in building automation framework using Selenium Web Driver (Java/Unit4) for various applications in retail, revenue protection and credit risk spaces.

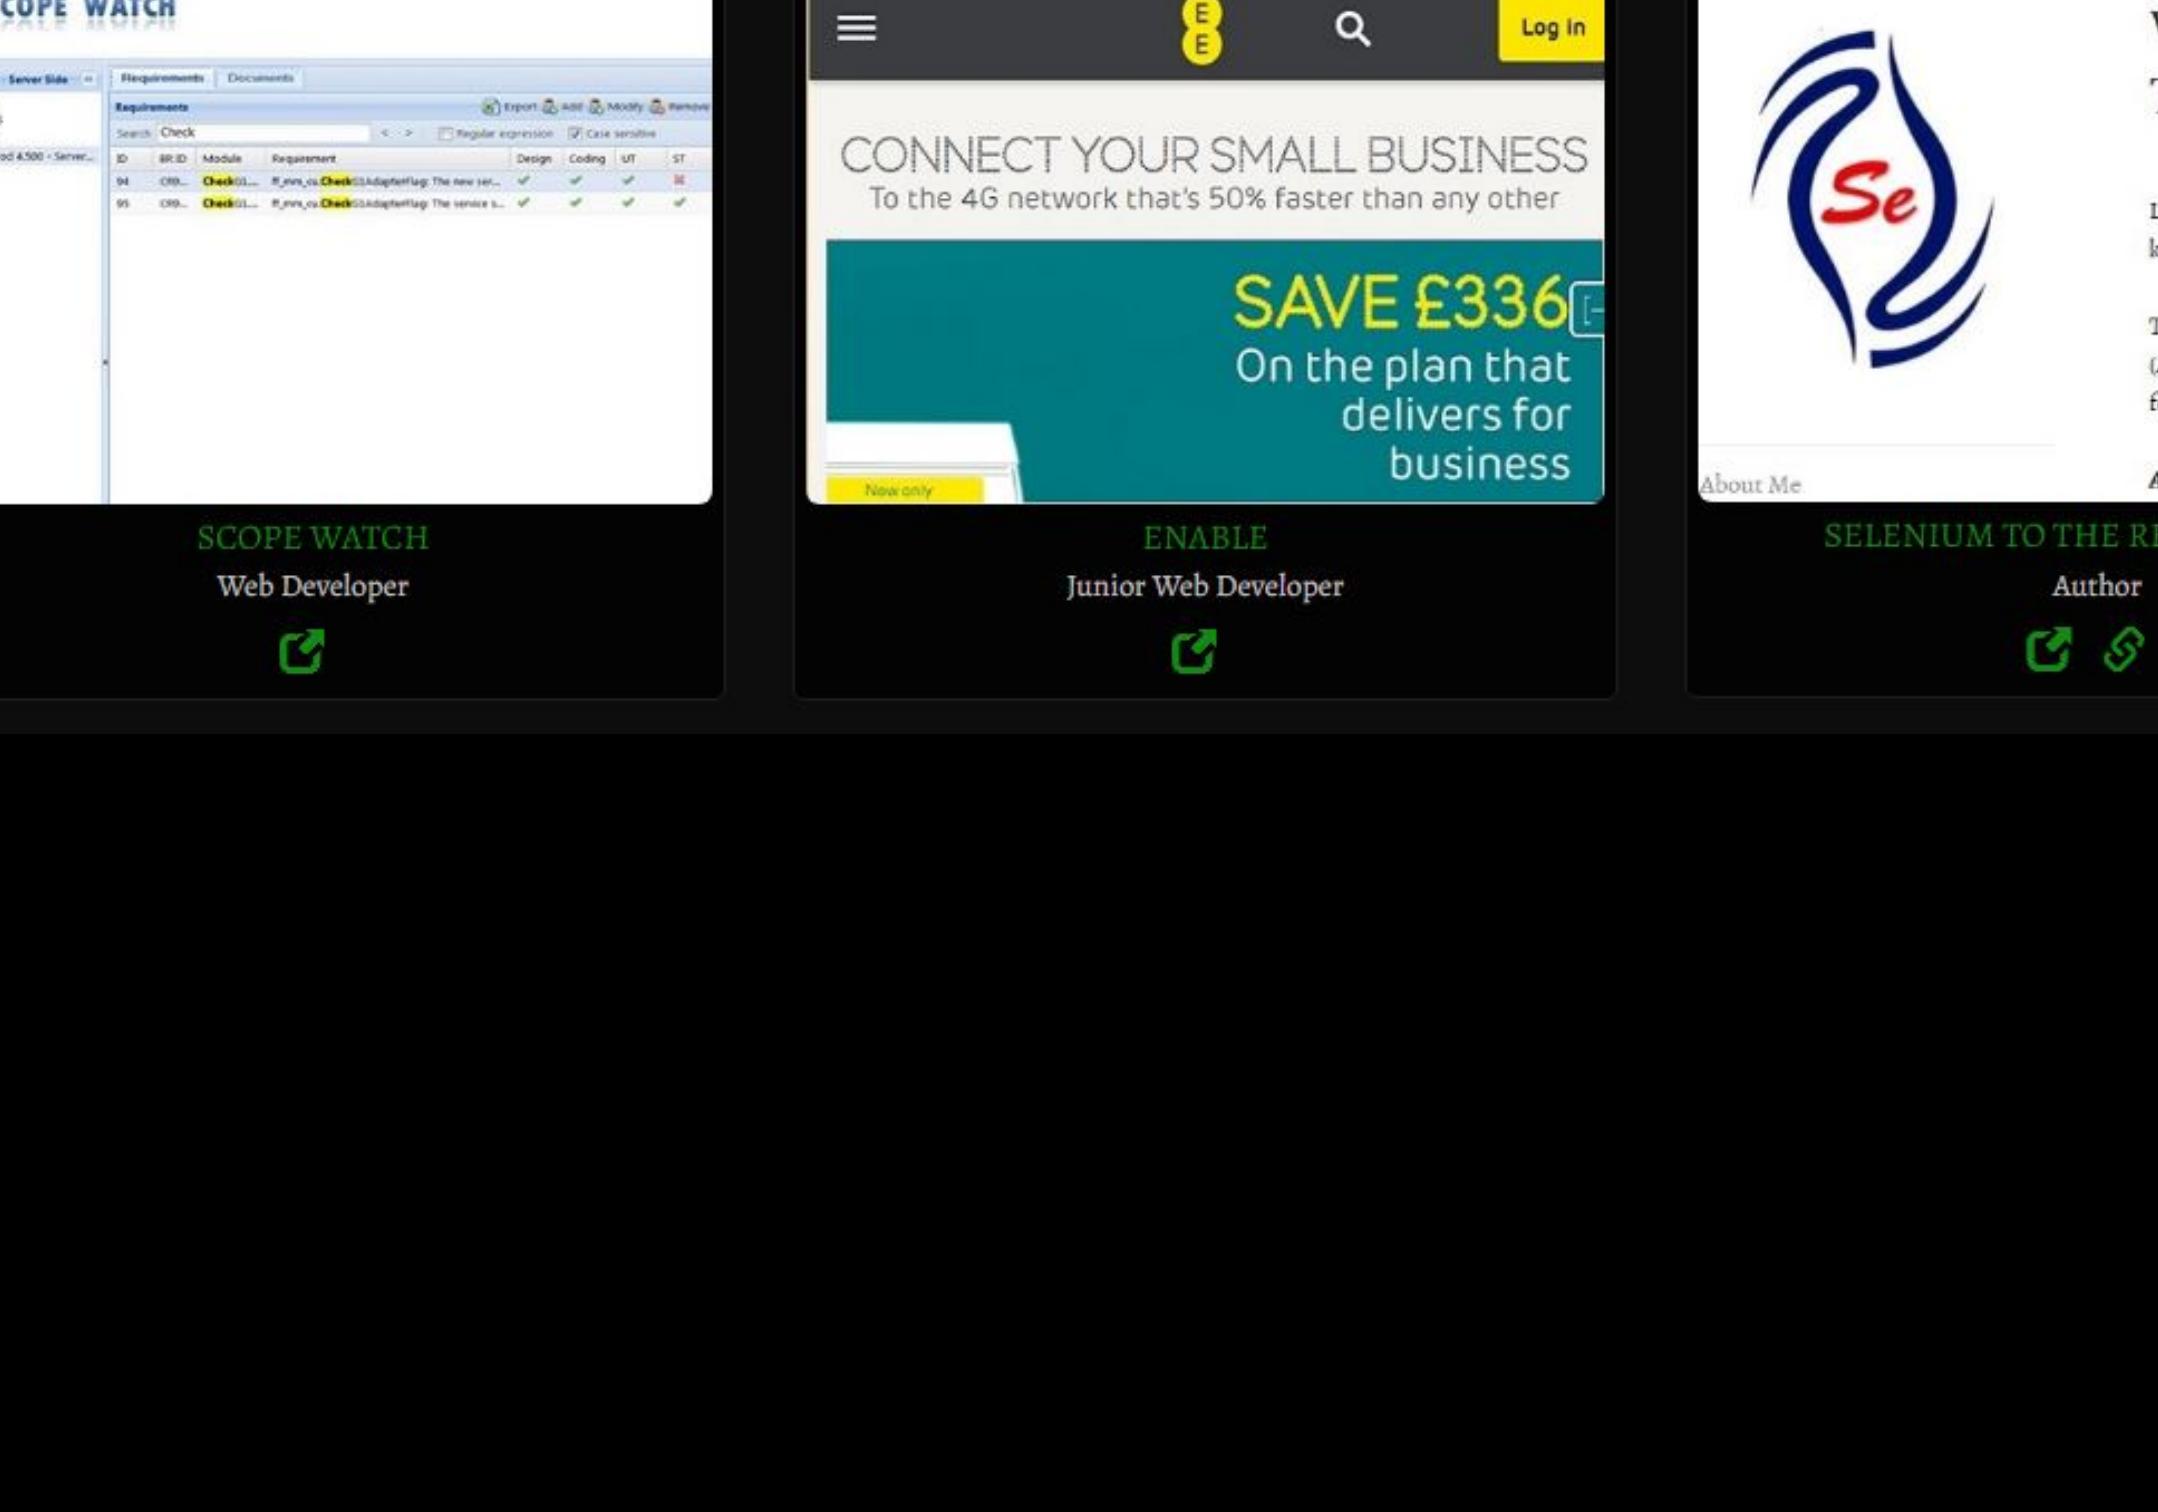

Displayed key skills in successfully understanding the application processes from onsite (Bristol, U.K.) and forming the offshore team in India.

Experience in practicing Agile methodologies.

Enjoy working on challenges and spend quality time crafting [my blog](#).

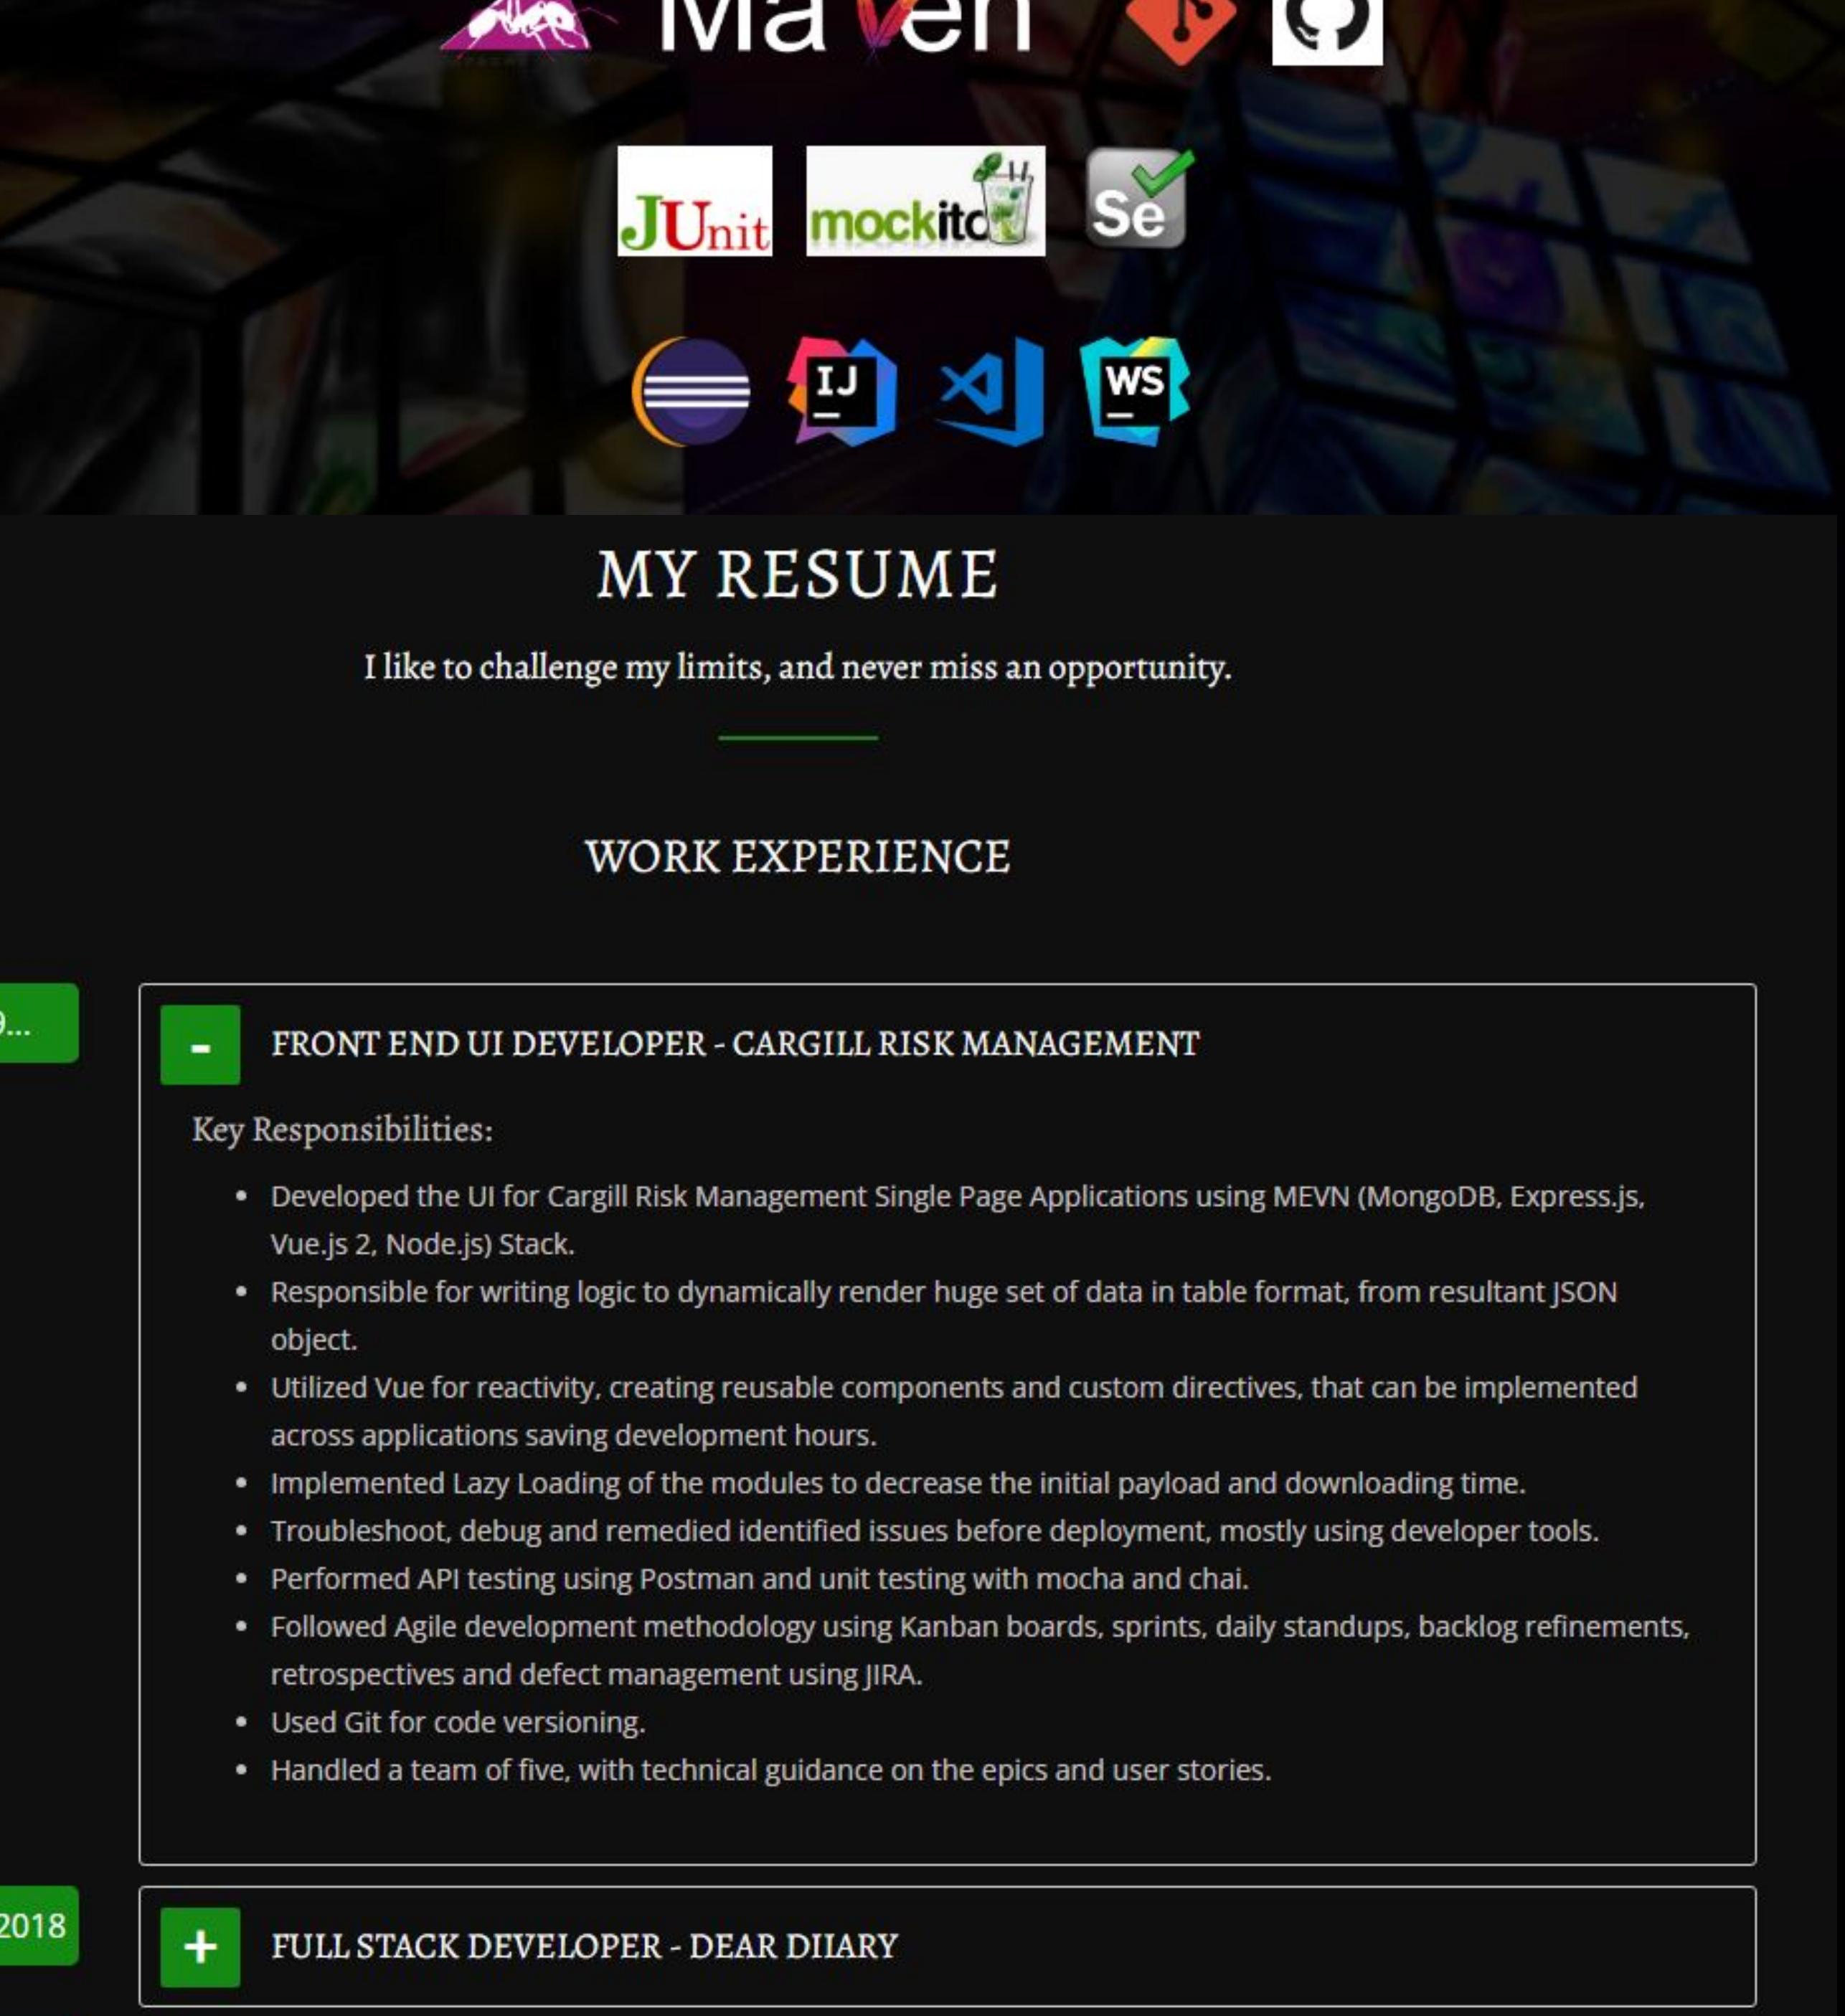

## MY STRENGTHS

Facing challenges with strength, determination and confidence is what matters to me.

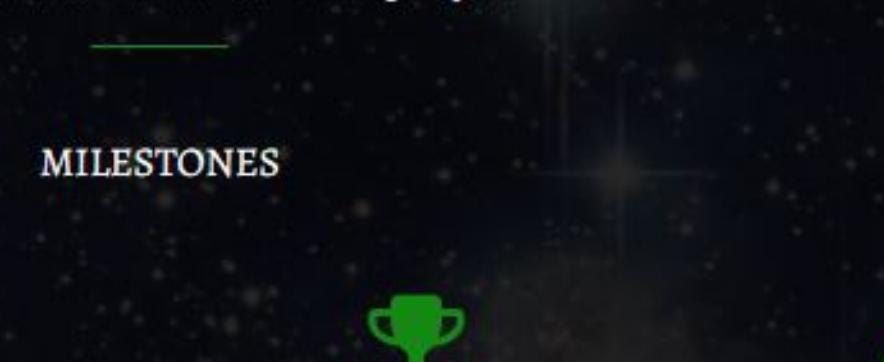

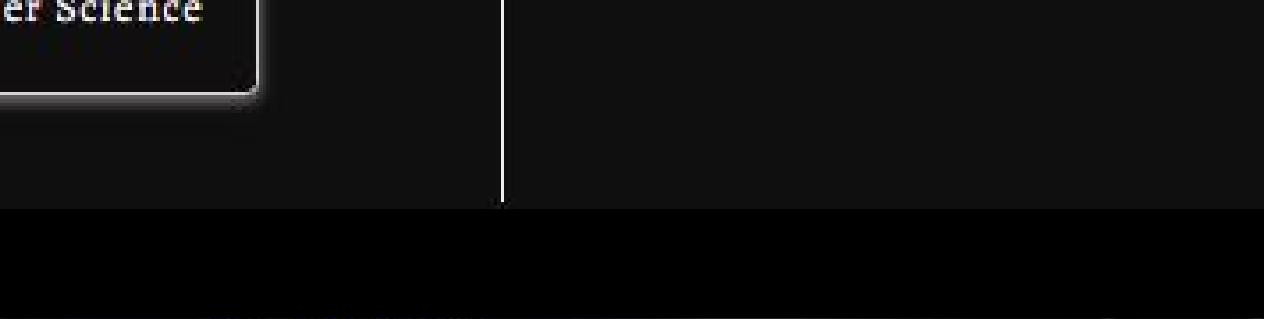

## MY PROJECTS

My portfolio keeps expanding over time to better address even more challenges.

Wisdom is knowing what to do next. Skill is knowing how to do it.

## MY SKILLS

## MY RESUME

I like to challenge my limits, and never miss an opportunity.

## WORK EXPERIENCE

Jul 2019...

### FRONT END UI DEVELOPER - CARGILL RISK MANAGEMENT

Key Responsibilities:

- Developed the UI for Cargill Risk Management Single Page Applications using MEVN (MongoDB, Express.js, Vue.js 2, Node.js) Stack.

- Responsible for writing logic to dynamically render huge set of data in table format, from resultant JSON object.

- Utilized Vue for reactivity, creating reusable components and custom directives, that can be implemented across applications saving development hours.

- Implemented Lazy Loading of the modules to decrease the initial payload and downloading time.

- Troubleshoot, debug and remedied identified issues before deployment, mostly using developer tools.

- Performed API testing using Postman and unit testing with mocha and chai.

- Followed Agile development methodology using Kanban boards, sprints, daily standups, backlog refinements, retrospectives and defect management using JIRA.

- Used Git for code versioning.

- Handled a team of five, with technical guidance on the epics and user stories.

Jun - Aug 2018
